EDUCATION

BSc (Hons) Biotechnology
SLIIT University — Expected 2029

G.C.E. Advanced Level
B/Badulla Central College
Biological Science Stream
Conmpleted

G.C.E. Ordinary Level
B/Badulla Central College
Completed

TECHNICAL SKILLS

- Microsoft Office (Word, Excel, PowerPoint)
- PCR & Gel Electrophoresis
- DNA / RNA Extraction
- Basic Bioinformatics
- Microscopy & Sample Preparation
- Laboratory Safety & Sterile Technique
- Basic Statistical Analysis
- Google Workspace (Docs, Sheets, Slides)
- Wet Lab Techniques
- Instrumentation & Tools Techniques
- Basic microbiology Techniques

LANGUAGES

Sinhala — Native
English — Fluent

HEWA ARACHCHIGE YASITH IMESHA

BSc (Hons) BIOTECHNOLOGY UNDERGRADUATE

OBJECTIVE

First year BSc (Hons) Biotechnology student at SLIIT, sort of with a solid background in molecular biology, genetics and lab methods, looking to somehow join the Genetics Internship at the Institute for Research & Development. I'm really keen to put my academic understanding of DNA/RNA extraction, PCR and bioinformatics to use, I can support current studies and at the same time sharpen my practical technical ability, plus scientific writing skills.

EXPERIENCE

Laboratory Assistant (Volunteer) — School Science Laboratory
Jan 2022 – Mar 2022

- Assisted teachers in preparing and setting up basic experiments for A/L Biology and Chemistry practical sessions
- Maintained laboratory equipment, glassware and reagents, ensuring a safe and organized working environment

Peer Tutor — Biology & Chemistry (Sasnaka Sansada Foundation)
2023 – 2024

- Tutored O/L & A/L students in core Biology and Chemistry concepts on a volunteer basis
- Prepared simplified study notes and practice questions to support exam preparation

Volunteer — School Science Exhibition
Aug 2022 / Sep 2023

- Designed and presented a project on plant cell structures at the school's annual science exhibition
- Guided visiting students through interactive biology demonstrations

Volunteer — Community Blood Donation Campaign
Mar 2023

- Assisted in organizing and registering donors for a community blood donation drive
- Supported awareness efforts on basic health and hygiene practices

AREAS OF INTEREST

- Molecular Biology & Genetics Research
- Laboratory Technique Development & Optimization
- Bioinformatics & Data Analysis
- Scientific Writing & Research Documentation

KEY STRENGTHS

- Strong academic foundation in Biology, Chemistry & Physics
- Detail-oriented with disciplined laboratory practice
- Able to work independently and meet deadlines
- Fast learner with a genuine interest in applied research
